

Greetings,

4/12/21

We at Garage Gurus are excited to host the SkillsUSA Maryland State **Automotive Maintenance and Light Repair Virtual contest**. We look forward to meeting you April 16, 2021, 3pm. To help you prepare for the contest we have put together some items that you can review and study which will help you familiarize yourself with the vehicle you will be virtually working on.

In this document you will find information about the vehicle you will encounter during your Automotive Maintenance and Light Repair challenge, for Skills USA Maryland on April 16<sup>th</sup> 2021. There is a copy of the repair order outlining what you will be guiding your proctor through, on a vehicle. There will be additional areas/stations you will be guided through, not on the vehicle, which will be related to the customer concerns found on the repair order as well. In order to help you get better acquainted with the vehicle, we have attached images of:

VIN number

Mileage

Multiple angles and images of the engine bay

Engine Emissions sticker

Refrigerant sticker

Please use this information as a way to prepare for the virtual hands-on portion of your testing. You will be asked questions about the service points of this vehicle.

Again, we look forward to meeting you on April 16<sup>th</sup> 2021.

Regards,

William "Bill" McAleese
